 - Testicular
 - Carotid
 - TCPO2 study
 - Echocardiography**
 - Fetal hips
 - Hysterosonogram

- FLUOROSCOPY (RF)**
- Barium Enema
 - Barium Swallow
 - UGI
 - Air Contrast
 - Small Bowel
 - Other: _____
 - Single Contrast
- Other: _____

PATIENT PREPARATION FOR EXAM

Please bring any prior imaging studies relevant to the exam you are having today.

CT Scan Preparation:

CT Scan Abdomen, Pelvis or any IV contrast:

- Nothing to eat or drink four (4) hours prior to exam.

All CT Scan Patients:

- Inform us if you are on Glucophage (metformin) for Diabetes.
- Please allow 30-60 minutes for each procedure.
- When scheduling, we allow 30 minutes to fill-out the necessary paperwork.
- Do not eat 4 hours prior to exam.

Nuclear Medicine Preparation:

- **Bone imaging:** No prep.
- **Liver-spleen imaging:** No prep.
- **Hepatobiliary studies:** Nothing to eat after 10:00 PM the night before the study.
- **Renal studies:** Drink plenty of fluids in the morning of the study.
- **Thyroid uptake and scan:** No iodinated contrast media at least 2 weeks before the study, the patient should be off their thyroid medication 4 to 6 weeks prior to the study.

Ultrasound Preparation:

Ultrasound Abdomen, Liver, Gallbladder:

- Nothing to eat or drink after midnight the evening before the exam (6 to 8 hours).

Ultrasound OB and Pelvic:

- Drink four 8oz. glasses of water within 30 minutes, beginning one hour prior to exam. For OB patients 4 glasses. **Do not empty your bladder.**

Ultrasound Renal/Bladder:

- Drink four 8oz. glasses within 30 minutes prior to exam.

MRI Preparation:

Open on Saturdays

- No hair products, facial makeup or body piercings.
- Advise us if you have a Cardiac Pacemaker, metallic implants, cochlear implants or neuron stimulating devices.

Mammogram Preparation:

Open on Saturdays

- Please do not apply deodorant, lotion or body powder under arms or breasts.
- Also, please bring any prior mammograms to your appointment.
